TRANSITION & PERFORMANCE

HERE ARE A FEW EXAMPLES OF SUCCESS FROM OUR PROGRAMS

Véronique - 5 months to find a new job

Supply Chain Manager at Nespresso

-> The same position at Haemonetics

She was in her previous position for a long time and she really enjoyed our job market knowledge, our network within local and international companies in the Suisse Romande area.

Marta - 7 months to launch her own company

Sales and Operations Planning Executive at PMI

-> Launched her exclusive Travel platform

What she enjoyed the most was the career assessment she did at the start of her program. It helped her to really focus on what was important to her, identify her key strengths and areas of improvement in order to identify the trainings which could make a difference in her profile.

Zsolt - 5 months to find a new job

Business Process Manager at **Coty**

-> Integrated Planning Director **Johnson & Johnson**

He was looking for a senior executive role and needed some help to get more visible from executives. He also enjoyed our coaching sessions and the time taken to help him land in his new role.

Adrian - 6 months to find a new job

Manager Supply Chain Projects EU Region at PMI

-> Head of EMEA Supply Chain at the **Chemours Company**

He had several business ideas, and after we went through different business assessments, we helped him realize that these business ideas were side projects more than sustainable businesses and that it was better for him to go back to a corporate role. Which he did well!
